Dear Parent/Guardian,

Hello. This is Mr. Miller of the Science Department at Thornapple Kellogg High School. I am excited to have a productive, interactive, and challenging year with your son/daughter studying and learning about the world of Physics. We will be learning about mechanics, waves, optics, and electricity through interesting demonstrations and hands-on labs. I will do everything I can to create a positive and interactive learning environment for your student.

Please read over the **CLASSROOM SYLLABUS** for **CONCEPTUAL PHYSICS** with your student to be knowledgeable about your son/daughter's physics experience. Feel free to contact me at the high school if you have any questions.

Carpe Diem!

Mr. Miller

Please sign and return:

I have read and understand the classroom management plan for Conceptual Physics.
