Position vs. Time Slope Quiz

1. Based on the graph above, describe the motion of the object in words.

P.D.03 - moves in positive direction at constant velocity
 - stops for a second
 - moves in negative direction at constant velocity

2. Based on the graph above, what is the distance traveled by the object from 0-7 seconds?

P.D.01 8 m

3. Based on the graph above, what is the displacement of the object from 0-7 seconds?

P.D.01 0 m

4. What is the slope of the line from 0-2 seconds? Show all of your work for full credit.

P.D.04
$$\frac{y_2 - y_1}{x_2 - x_1} = \frac{4 - 0}{2 - 0} = \frac{4}{2} = 2$$

5. What is the velocity of the object from 3-7 seconds? Show all of your work for full credit.

P.D.04
$$v = \text{slope} = \frac{y_2 - y_1}{x_2 - x_1} = \frac{0 - 4}{7 - 3} = \frac{-4}{4} = -1 \text{ m/s}$$
