

Name: _____ Homeroom: _____

Observing Plants

Carefully examine a selection of different plants and answer the following questions for each plant.

Name of plant: _____

1. How tall is the plant?

2. Is the plant vascular or non-vascular?

3. Are the leaves flat or needlelike?

4. Do the leaves have any special structures?

5. Are the stems hard or soft?

6. How does the plant reproduce?

7. If it is a flowering plant, describe the flower.

8. Does the plant have special adaptations for living in a moist or dry environment?
